

VIBE ANTI-VIBE SOUND DEADENING FROM £13

Why it's so good: Vibe are usually linked with making noise, not reducing it, but the Birmingham-based ICE gurus have just launched a new sound deadening material. Anti-Vibe cuts down on unwanted vibrations and reverberations, making for a better-sounding ICE install and channelling all the 'good stuff' back into the car.

Give it to me now: £12.99 for a door kit, £24.99 for a roll from vibeaudio.co.uk or call 0870 765 8423.

INSTALLATION

Installation is simple and can be done by anyone with a few basic tools. The material is applied to the inner door panel, the trunk floor, and the rear parcel shelf. The material is applied in a similar manner to the trunk floor and rear parcel shelf. The material is applied in a similar manner to the trunk floor and rear parcel shelf.
